Call for Applications

TRAINING IN RESEARCH IN INTEGRATIVE MEDICINE POST-DOCTORAL FELLOWSHIP PROGRAM

The UCSF Osher Center for Integrative Medicine is now recruiting for postdoctoral fellowship positions for the 2018-2019 academic year.

The UCSF Osher Center's Training in Research in Integrative Medicine (TRIM), is a post-doctoral program funded by a T-32 Training Grant from NIH/NCCIH.

This interdisciplinary program is designed for physicians, behavioral and social scientists, and doctoral level practitioners of complementary and alternative medicine (CAM).
The 2 to 3-year program consists of required seminars and formal course work, individual mentoring, research and creative activity, elective seminars and classes, teaching, and a number of optional activities. Trainees are strongly encouraged to undertake coursework in the Advanced Training in Clinical Research Program at UCSF. Information available at:
http://www.epibiostat.ucsf.edu/courses/ATCR.html.

The TRIM application form and general information about stipends and other NIH requirements, is available on the Osher Center web page at:
http://www.osher.ucsf.edu/research/fellowships/

Interested applicants must apply by 9am on Monday, December 4, 2017.

If you have any questions, please contact Yvette Coulter, TRIM Program Coordinator at: Yvette.Coulter@ucsf.edu.

UCSF is an Equal Opportunity Employer and the Osher Center seeks to diversify student and faculty populations. Women, minorities, people with disabilities and veterans are strongly encouraged to apply. TRIM post-doctoral fellowships are open to individuals with doctoral degrees (e.g., MD, PhD, DO, ND, OMD, etc.). In order to qualify for this federally funded grant, an applicant must be a U.S. citizen, a non-citizen national or a foreign national possessing a visa permitting permanent U.S. residence. Having a temporary or student visa is not acceptable under this grant. At this time, we are unable to consider applications of any individuals who do not meet the eligibility criteria outlined above.
