

As a **Primary Care Physician** with UT Medical Center-Knoxville, you can enjoy the close connection of community-focused patient care with the resources and reputation of one of the region's growing health systems.

We are seeking an Integrative Medicine physician who has exceptional clinical skills in integrative medicine, experience with interprofessional teamwork and collaboration, and a commitment to diversity, equity, and inclusion.

Candidates must be Board-certified in Family Medicine, Internal Medicine, Med-Peds, have completed a fellowship or equivalent advanced training in integrative medicine, have direct experience in the practice of complementary and integrative healthcare, and be licensed or eligible to be licensed in the State of Tennessee

At UTMC you can:

- Provide primary integrative health care to members of our community
- Utilize your full breadth of clinical skills to treat our patient population
- Work within an expanding, thriving practice and team environment, using Cerner systems
- Deliver leading-edge patient care
- Teach medical students, residents and nurse practitioner students with a faculty appointment in the Graduate School of Medicine
- Enjoy an excellent salary, incentive and benefits program
- Collaborate in research
- Experience East Tennessee's incredible outdoor and lifestyle advantages
- Be valued for your unique contributions
- Grow your medical career

Job Requirements:

- Internal Medicine, Family Medicine, or Med-Peds board certified
- Integrative Medicine board certified or eligible
- Experience in the practice of integrative healthcare
- Tennessee licensed or license eligible
